

## **Semiconductor Industry Legacy Fund**

Semiconductor technology changed the world. Its rich history of innovation, as well as its resilient and talented people, should be remembered for their accomplishments—in Silicon Valley and around the world.

This acknowledgement, through the creation of the **Semiconductor Industry Legacy Fund (SIL Fund)** will honor the industry's remarkable technology and applications, its business acumen and its people. And, it will enable the Computer History Museum to show how the Semiconductor Industry impacted, and continues to impact, people and the world at large as well as educate future generations about the industry and its pioneers. Our goal is to raise in excess of \$1,000,000 to fund the Semiconductor Theme Room and a greater Semiconductor presence at the Museum.

I/We choose to support the SIL Fund at the following level:
